

TCM Forklift Part

TCM Forklift Parts - In the international industry of material handling, forklifts play a major part for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the United States of America, lift trucks gained recognition following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread internationally.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first lift truck. Over the years, TCM lift trucks have become a global leader in lift truck manufacturing and have built a solid reputation with the business. TCM started building lift truck manufacturing sites outside of Japan in the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With over 50 years of accumulated expertise and technology, TCM has been proudly manufacturing several models of industrial trucks, making their models recognizable all over the globe. With an energetic and strong staff, TCM has been able to constantly work towards becoming a future leading material handling company.
